

Become a Certified Test Administer for your Company!

Safety Solutions is offering a Certified Test Administer Course for our Ergonomic HR Tool, the Physical Ability Test. The certification course is (3) hours of intense learning and practicum of our test administration. Upon completion of the three hours of training, passing the certification examination and performing thirty (30) mock tests you will receive your certification.

This is an exciting opportunity for your company to start administering an in-house conditional post offer employee hiring and placement tool, the Physical Ability Testing. The test battery via a job task analysis identifying the physical demands of the job tasks, once established per job position will provided the test methodology specific for your company's job positions. The cost savings to administer the testing in-house is staggering and the transfer of liability to an unrelated third party is priceless.

Contact us at gjarvis@safsol.com for upcoming course dates and the next scheduled healthcare and medical transportation course, Thursday October 29th. See our Post on LinkedIn or www.safsol.com, click on Ergonomic button and directional arrow.
